Weekly News

At Delphic School Students and Staff are Safe, Respectful, and Responsible

September 18, 2020

Superintendent/Principal Message

Dear Parents and Families,

Air Quality

The very poor air quality has prevented us from taking children outside. With this, on top of Covid-19 protocols, we have had to cancel the SAFE program. We hope the air quality will improve soon so we can resume SAFE. We use airnow.gov for air quality monitoring and students can play outside when air quality is less than 100.

Instructional Support

If your child is coming to school for onsite instructional support, please have the complete all the work that has been assigned prior to the day they come. For example, if they come on Tuesday, Monday's work should be completed unless there is something they need help with. Please contact your child's teacher if you have questions.

Distance Learning

Students MUST attend the daily ZOOM meetings with their teacher to be marked present in school that day.

Food Service

In addition to meals being served at school, students who are learning from home are still eligible for free grab and go meals. Please call the school if you have questions regarding this service.

For the kids! Ms. Thomas,

Email: jthomas@sisnet.ssku.k12.ca.us

K-2 GRADE

- Every student should be working on i-ready every day! All need to start with the diagnostic test. Every child should be doing their work and reading every day. There is no way they can complete everything in the short amount of time they are here at the school. My main focus is on reading their stories and reading over spelling words. Then I help them with their work. I know first grade reading is tough at the beginning, hang tough because your child will be successful! Have a good weekend!
cday@sisnet.ssku.k12.ca.us

3-5 GRADE

- It feels like we are getting a good routine going. Students will receive emails from me each Thursday if they are missing work. This will give them the opportunity to get it in before I grade on Friday afternoons. It is important they are hitting the time targets that are listed in their Weekly Schedules. Please contact me if you have any questions.
mjackson@sisnet.ssku.k12.ca.us

6-8 GRADE

- This week our class started using Studsync, Inspire, and i-Ready lessons. We are working on creating a new daily schedule to be able to check in with the students more productively as well as to include time for extracurricular activities. The class is SO very excited about adding in some time to create and collaborate! We are also introducing class dojo and a point system for assignment turn ins to earn small prizes. Parents, please send the updated days of when your child will be coming to instructional support. Many changed the days and we want to make sure that our list is correct.

SAFE Notes

(Safe Afterschool For Everyone)

We've missed you all in SAFE this week! Continue to work on your i-Ready and your safe-at-home activities
